

PSUs CUSTOM OR STANDARD?

RGM Commitment

RGM PSUs are designed and manufactured to be 100% integrated into customer final device. We provide turn-key solutions, supporting the client on every project's step. We do not oblige the customers to use a standard off-the-shelf product, we deliver genuine value to our customers by offering turn-key power solutions

**Special PSU
exceeding the
standards**

**Highly integrated
products**

Long term support

Turn-key solutions

**Logistic cost &
installation times
reduction**

CUSTOM

- **Non recurring costs borne by the client**
- **Long-term support**
- **Product evolution driven by the client**
- **Long time-to-market**
- **Low costs on repair instead of buying a new product**
- **Tailored features**
- **Optimized integration**
- **Product upgraded to the latest regulatory approvals**
- **Exclusivity purchase right for the client**

STANDARD

- **Design costs borne by the manufacturer**
- **Uncertain long-term support**
- **Product evolution imposed by the manufacturer**
- **Fast Time-To-Market**
- **Higher costs for repair**
- **Standard market features**
- **Non-optimal integration**
- **Regulatory approved**
- **Non exclusivity purchase right for the client**
